composition of functions - vdoe - composition of functions reporting category functions ... when students are comfortable with evaluating compositions of functions, hold a discussion about numbers 9 and 10 on the handout. be sure students notice that $f \circ g(x)$ and $g \circ f(x)$ are the same. ask why this is. if students do not notice it without

composition functions - the university of new mexico - composition functions composition functions are functions that combine to make a new function. we use the no-tation to denote a composition. $f \circ g$ is the composition function that has f composed with g . be aware though, $f \circ g$ is not the same as $g \circ f$. (this means that composition is not commutative).
